

# ODU MEDI-SNAP® IN SIZE 3.5

## VERSATILE AND EASY TO HANDLE

### KEY FEATURES

- ✚ Maximum performance in the smallest installation space for up to 41 signal contacts
- ✚ Media such as signal, power and fluid combined in a single interface, solutions for coax and fiber optics are also available upon request
- ✚ User-friendly, safe and reliable due to push-pull locking system
- ✚ Highest operator and patient protection according to IEC 60601-1: 2 MOPP, 2 MOOP
- ✚ Lightweight plastic housing
- ✚ Variety of media inserts: Sealed/unsealed straight plugs in combination with sealed/unsealed receptacles for front or rear panel mounting

### Applications:

INDUSTRIAL | MEDICAL | TEST AND MEASUREMENT

Unique inserts for hybrid solutions offer space for more signals in addition to the transmission capability of power and fluids.

Customized solutions to accommodate additional media such as coax or fiber optics are available. A signal-only version accommodates 41 contacts.
